

BUSINESS-DRIVEN TECHNOLOGY CONSULTANTS

Xcelacore is a Chicago-based technology consulting firm. As a trusted partner, we help businesses implement technology to drive innovation with flexibility, quality, and for less.

Our Services

Cloud Development + Devops

With us, your move to the Cloud will be seamless. Xcelacore's expertise covers the full lifecycle of MVP launches, new app development, and the migration of platforms and applications.

Custom Software Development

Xcelacore brings together the right mix of business understanding and experts to design and architect extensible and scalable custom software solutions. Whether you're looking to build software, applications or integrations, we utilize our web and mobile technology experience to do it right the first time.

QA Testing & Automation

Don't spend valuable human resources. Automate the process and get more done with less. We are experts in Quality Assurance Automation. Xcelacore provides extensive experience in testing automation and leverages tools and a team of experts to speed up the development cycle.

IT Staff Augmentation

Xcelacore delivers the resources to rapidly scale your IT team to meet surges in demand, find a specific skill set, or fill in for an employee on leave. We provide onsite or remote resources for either short or long-term initiatives.

Robotic Process Automation

Robotic process automation (RPA) is a software technology that makes it easy to build, deploy, and manage software robots that emulate human actions interacting with digital systems and software. Xcelacore can help get your employees back to innovating, interacting with customers, and bringing more value to your business.

E-commerce

Create an e-commerce site that closes the sale. We're experts in the technical backend systems and mechanisms as well as the aesthetics of the frontend. Our developers at Xcelacore can expertly create all the necessary components to effectively attract, convert, close, and retain customers.

Platforms & Integrations

Xcelacore tailors solutions for your business. Whether you're looking to implement a new ERP, or CRM system, we have enterprise experience with Salesforce, Microsoft Dynamics 365, NetSuite, and various payment systems.

Cybersecurity Testing

Xcelacore's experts can help safeguard your applications from cyber threats with efficient security testing.

Wordpress Development + Maintenance

Trust our development team to deliver you a professionally designed and customized WordPress site that represents your business online and drives results. Xcelacore's managed hosting and maintenance plans offer peace of mind and assurance that your website will always be up to date and compliant.

Artificial Intelligence (AI)

Our team of experts can help your organization navigate the continuously evolving innovations in AI. Lean into the AI revolution to stay ahead of the competition, cut costs, streamline backend processes, & deliver a better customer experience.

About Us

Matching business objectives and requirements with technology strategies, Xcelacore's focus is the design and implementation of technology solutions that drive businesses forward. Our experts provide a unique blend of business, technology, and marketing leadership that helps our clients navigate technology investments and implementation, increase ROI, and sustainability.

We always keep customer service top of mind and we strive to make sure we are adding value.

We bring management consulting level experience to mid-size markets at affordable prices.

Our project management and delivery methodology is proven to deliver results.
